ARCHITRAVES

1 INTERACTION WITH CLIENTS

Social interaction is the process by which we act and react to those around us. In a nutshell, social interaction includes those acts people perform toward each other and the responses they give in return.

2 MATERIAL SELECTION

Material selection is the act of choosing the material best suited to achieve the requirements of a given application.

3 ESTIMATE

a statement of the cost of work to be done. To find a value that is close enough to the right answer, usually with some thought or calculation involved

4 DESIGN

a plan or drawing produced to show the look and function or workings of a building, garment, or other object before it is made.

5 PRODUCTION

Production is similar to manufacturing but broader in scope. It refers to the processes and techniques that are used to convert raw materials or semi-finished goods into finished products or services with or without the use of machinery.

6 EXECUTION

The carrying out of a plan, order, or course of action.

7 ON TIME PROJECT HANDOVER

Where your work comes to fruition. But handover is more of a process than a milestone, so there is a lot to get right.

8 LIFETIME SERVICE SUPPORT

The lifetime of a product has two definitions: the span of time that the item is safe to use and, secondly, the span of time that the product is in production and warrantied.

I got my dental clinic's interior works done by limelight interiors. They are very professional and good at their work. Very reasonable rates also. Much recommended.

I highly recommend Limelight for any interior renovation project. Their dedication to excellence and client satisfaction is commendable. Our office space now not only looks fantastic but also provides a more comfortable and productive environment for our team.
